Projects:

Lager Head - <https://safe-woodland-86118.herokuapp.com/>

- Lager Head is an application that allows a user to take a quiz that, based on his/her answers to said quiz, will match the user with a beer, the brewery that the beer is at, some facts about the beer (description, abv, ibu), as well as some nearby food options.
- Technology used: JavaScript, Handlebars.js, Express.js, Node.js, MySQL

Gamers United - <https://powerful-beyond-98279.herokuapp.com/>

- Gamers United is a platform for gamers to organize and sign up for local events, and get their gaming news. This platform will allow users to come together and celebrate their love for whatever game they wish to play! Once the user visits the site, he or she will login and be able to choose to create an event, sign up for an event, or check out the most recent Esports news.
- Technology used: React.js, Express.js, MongoDB, Node.js

Experience:

Profit Builder Network, Minneapolis, MN

2016-Present

- Designed and launched a new website on Wix Platform to increase lead generation and make future website updates more streamlined.
- Generated internal marketing materials to promote Profit Builder Network brand and presented at networking events to aid in lead generation for the company.
- Wrote 15+ blogs, aided with creating marketing content & materials for clients. These efforts aided in the successful sale of a company as the blogs assisted in creating a positive brand image for the company.
- Developed and wrote dozens of Standard Operating Procedures (SOPs), both internally and externally, which aided in the training of current staff and will also serve to train future staff.
